

Certificate of Professional Competence National/International Transport Managers Qualification

The Course:

Certificate of Professional Competence gives the candidate a detailed insight into the workings of the Road Haulage Industry as well as providing them with the skill set to become a fully qualified transport manager.

Outcome:

On successful completion learners will receive a Certificate of Professional Competence. This means that they can now apply for a Goods Vehicle Operators Licence and improve their chances of success within an organisation.

Benefits to employer and employee:

Learners will develop their knowledge of road haulage laws, finance and road safety, helping to ensure a safe practice.

Employers will be complying with the "Goods Vehicle Operators" Regulations of 1997, as well as improving their staffs abilities and performance.

Candidates will be prepared and able to deal work within the logistics sector with efficiency and with a well respected qualification.

Course Modules:

1. **National Road Haulage:**
(Civil, commercial and social laws)
2. **National Road Haulage:**
(Fiscal law, business and finance management, and access to the market)
3. **National Road Haulage:**
(Case study)
4. **Freight International:**
(Law, accessing the market, business and finance, and road safety)

International Course Entails:

- Insights into Carriage of Goods abroad and relevant regulations
- Safe working practices
- International Law
