- In-cab, shadowing and mentor training - to embed company specific procedures
- Quarterly learner progress reviews - tutor, mentor and learner discuss progress and set targets
- Observations and assessments - to ensure the learner is putting the taught skills and knowledge into practice
- English and maths functional skills training
- Mock assessment - ensure the learner's End point assessment readiness
- End point assessment - practical observation test and written short answer test

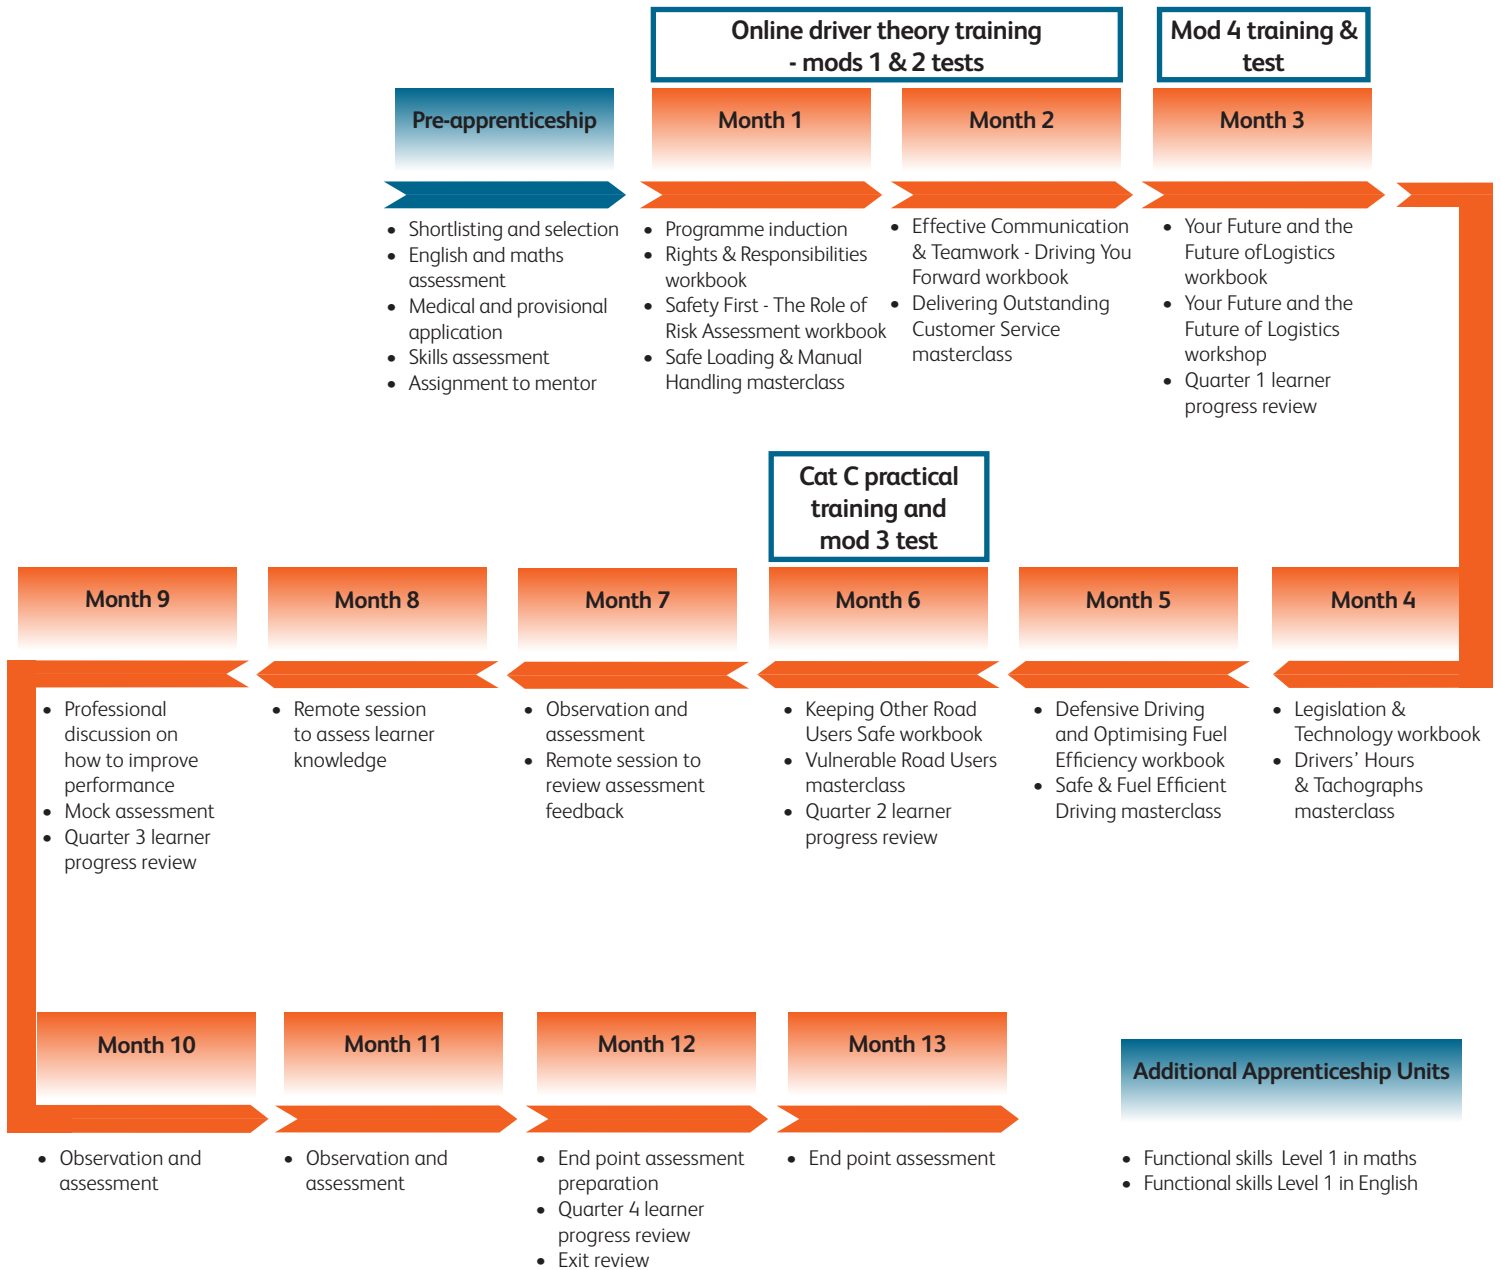

*medical, test fees and Jaup uploads extra

LGV Driver with Cat C Licence Acquisition

Programme Outline

Your drivers will develop first rate driving skills, becoming the only type of driver your business can afford to employ

Dave Tomlinson, Transport Manager, JJO plc

As Transport Manager of JJO, Dave Tomlinson has seen a range of benefits to the company as a result of his drivers undertaking an apprenticeship.

It teaches drivers to drive in a fuel efficient way and in a manner that is kind to the vehicles.

This gives us a professional driver, better return on fuel figures, a low accident rate and lower insurance premiums.
