Email: apprenticeships@mantralearning.co.uk

The programme

The Level 2 Diploma in Heavy Vehicle Maintenance and Repair (QCF) is for anyone developing a career in the motor industry. This practical qualification demonstrates skills on the job, in the workplace, showing that you meet national standards for automotive workers. It has been developed by the Institute of the Motor Industry, which is the Sector Skills Council for the Automotive Industry.

The Level 2 Diploma in Heavy Vehicle Maintenance and Repair is a combined qualification that forms both the knowledge and competence elements of the Intermediate Apprenticeship.

Learner benefits

- Gain a recognised qualification that will boost your career prospects and enable you to progress onto higher level qualifications
- Develop practical skills to help you do your job better
- Learn how to use the latest technology in diagnostics and repair
- Develop your problem solving, communication, team working, personal learning and thinking skills
- Build your self-confidence
- Learning takes place on the job and in our fully equipped Automotive Centre
- The apprenticeship will also develop your English, maths and IT skills

Outcomes

The programme will get you on the way to becoming a professional mechanic and open up opportunities to develop your skills and advance your career.

Heavy Motor Vehicle Maintenance and Repair

Intermediate Apprenticeship and Level 2 Diploma
